Education:

Florida State University	**Tallahassee, FL**	
BS: Industrial & Manufacturing Engineering	**Graduation: May 2013**	
Syracuse University	**Syracuse, NY**	
MS: Applied Data Science	**Graduation: Spring 2020**	

Data Science Courses:

- **Principles of Management Science**
- **Advance Database Management**
- **Text Mining**
- **Big Data Analytics**
- **Information Visualization**
- **Data Analytics**
- **Applied Data Science**
- **Scripting for Data Analysis**

Work Experience:

LM RMS, Littleton, CO   **Systems Engineer: Logistics (AF DCGS) July. 2015 – Present.**

- Obtain hundreds of quotes for proposal and procurement efforts to enable program to win and meet contracts demands
- Administer annual audits on approx. 600 items to have material available for any deployment/development on the program
- Initiate over one hundred shipments and required government documents (DD250) to support the customer
- Implement new procedures based the associated FAR & DFAR requirements to get the program into contract compliance
- Compose & review technical documents (TCTO, RSPL, Drawings) for contractual CDRL Delivery
- Travel to customer sites with teams, to support deployments and troubleshooting of our systems
- Interface with Customers (PMO, DCMA, Airmen) to provide project status and solutions to current issues

LM Aero, Palmdale, CA*   **Operations Engineer & IE**   **July 2014 – July. 2015**

- Evaluate central shipping and receiving processes to improve material flow for the stockroom
- Conduct group interviews to assess Palmdale's culture, support leadership to analyze data and build culture improvement plan
- Manage and status repairs, fabrication, and coatings for 44 F-22 customer returned orders, delivered 12 parts
- Analyze fabrication metrics to determine which processes and products to investigate for potential improvements

LM RMS, Syracuse, NY*   **SQE & Stockroom Analyst**   **July 2013 – July 2014**

- Resolve SAP material movement discrepancies on 732 materials; for either physical or system related problems
- Initiate over 17,000 cycle counts to audit the stockroom's accuracy and meet MMAS and FAR requirements
- Process and status special process surveys for Syracuse vendors and to audit SQQ-89's suppliers
- Generate quality reports and support multiple production areas to increase quality awareness across RMS

Leadership Opportunities:

Initiative for Community Engagement   **Morale Leader**   **Feb. 2017 – Present**

- Coordinate program and site events to engage and improve employee morale
- Train and mentor new employees on the program to help acclimate and develop the new talent

OLDP Lockheed Martin*   **Program Participant**   **July 2013 – July 2015**

- Engage in corporate educational curriculum; conference, soft & hard skill training, mentoring, business project
- Maintain the OLDP Website and SharePoint by assigning and performing basic maintenance and requested improvements
- Lead structured improvement exercises/projects for CAR issues & line of business cost reduction   *OLDP Experience

Certifications, Trainings

Systems Engineering Bootcamp	**Training**	**April. 2018**
Engineer in Training	**Certified**	**Feb. 2015 – Present**
LM21 Green Belt	**Certified**	**June 2014 – Present**
Control Account Manager (EVMS)	**Certified**	**Feb. 2014 – Present**

Skills:

- SAP, WAWF, Python, R, Tableau, Enterprise Architecture, VBA, C++, MATLAB, Root Cause Analysis, EPDM, TS/SCI Clearance, SQL, Hadoop, Redis, MongoDB
